AT A LOW FIGURE
nov18

GOSSAMER WATER-PROOF CAPE.
THE MANUFACTURERS claim for the above new style of cape the following:
That they are perfectly water-proof.
That, if worn in the rain twenty four hours, they will not absorb any moisture, while the old style will nearly double its weight, and not keep the wearer dry, either.
That, when rolled-up, they are only seven inches long, and three inches in diameter, and can be carried in the pocket, while the old style is as large and cumbersome as a woolen shawl.
That, being so light-weight, and having no warmth, they are welcomed by all ladies for warm-weather use, or to throw over a winter cloak in cold weather.
That they are not affected by either cold or heat, neither will they become soft and useless with warm damp weather.
That all who have used the Gossamer Capes have expressed themselves perfectly satisfied with them.
That a lady, who has a Gossamer in her pocket, can leave the troublesome umbrella at home, and if the rain comes before she reaches shelter, with the Cape thrown over her, and the Hood over the bonnet, she is far better protected than she could be with the umbrella.
For sale at manufacturers' prices.
dec1 [By WM. C. COZZENS & CO.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 State St., opp. Kilby St., Boston.
AFTER AN EXTENSIVE PRACTICE of upwards of thirty years, continues to secure patents in the United States; also in Great Britain France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with despatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON, Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakeable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
Boston, Jan. 1 1875.—1yr-eod.

Weather Strips.
NOW IS THE TIME to have your Doors and Windows fitted with Weather Strips, before the cold winds come. For sale by the foot, or applied, if wished, at short notice.

Special Notices.

CONSUMPTIVES, TAKE NOTICE.
Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cured.
Dr. Schenck will be at the Quincy House, Boston, on the following Wednesdays, from 9 to 3 o'clock: Jan. 13th and 27th, Feb. 10th and 24th, and March 10th and 24th. Consultation free; but for a thorough examination of the lungs, with the Respirometer, the price is $5.
Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Streets, Philadelphia, every Monday, where all letters of advice must be addressed.

Bellevue Avenue, Newport.
Bouquets, Baskets, Cut Flowers and Choice Plants.
Gardens laid out and kept in order by the day, month or year.

NEWPORT EXOTIC GARDEN.
WHERE can I find it? is sometimes asked by strangers, but never by old visitors.
Now is the time to secure your bedding plants. We never before had such a quantity and never such fine plants as this season, consisting of all the new and rare plants. All we desire, is to come and look and see for yourselves. Roses, Dracenias, Centaurias, Geraniums of all sorts, Carnations, Coleous, &c., all of these by the hundred or thousand. Hundreds of other varieties of bedding and foliage plants, all at low rates. Baskets, Stands, Vases, Jardineres. A fine lot of Ferns, Begonias, Caladiums, Palms, Euphorbias, Camellias and Azalias, Rose Buds by the hundred, and everything pertaining to a first-class Horticultural Establishment. All orders received this season for Boquets, Baskets, Cut Flowers, and decorations for parties and weddings, received at the garden, as we have vacated our store on Bellevue av., to avoid extortionate rent, which we save by doing all our business at the greenhouses and which our patrons will have the benefit of. Trees of various sorts to be found in addition to the above. **Galvin & Geraghty**, Dearborn and Spring streets, Newport, R. I. my5

WEDNESDAY, JANUARY 20, 1875.

THE SUB-COMMITTEE'S REPORT.

OPINIONS OF THE PRESS.

[From the Boston Post.]

The result of the investigation of the committee sent from Congress to Louisiana more than confirms all that stands urged against the administration and its agents in its dealings with the state. It is even stronger in its accusations of persistent wrong than the friends of Louisiana have ever sought to make the case.

[From the New York Herald.]

As the work of three Congressmen who personally investigated the condition of the state, and whose ability and impartiality are not to be questioned, it will have great weight. It is, indeed, the only authoritative and trustworthy statement of Louisiana affairs that has yet been made.

[From the New York Times.]

We invite the attention of our readers to this report. It does not, so far as relates to the returning board, affect the action of the military on the 4th of January, but it shows very clearly on what kind of tactics the Republican leaders in the state relied to get the control of the lower house of the legislature, and it suggests the extreme caution which should be observed in every case where the United States government is called on to support a state government controlled by these men.

[From the Boston Herald.]

We do not wonder that the sub-committee of Congressmen who went to New Orleans were urged to modify the facts in their report by the other members of the committee who had a theory condemning the Conservatives and sustaining the Republicans. That report, published this morning, is a very important document. Be it remembered that it is the unanimous report of the committee composed of two Republicans and one Democrat—all fair, honest men. * * * What can Congress say in the face of the report of its own committee? How can it continue to sustain either by action or by silence a government built upon fraud and only kept in place by federal bayonets?

[From the Boston Advertiser.]

Meanwhile the report already printed will have the weight which the character of its authors gives to it. * * * Every member of the committee has a reputation for strong good sense and intelligence. When it was announced before the holidays that these gentlemen had been deputed to go to Louisiana, the country recognized that a more candid, and trustworthy committee could not have been made up. * * * Until it was known what their report was to be, no objection was made in Louisiana to the fairness with which their inquiries were conducted, or to their competency even to sit as a board of arbitration upon all matters at issue between the contending parties.

COLORED INKS.—Green: Two parts acetate of copper, one part carbonate of potash and eight parts water. Boil til half is evaporated, and filter. Blue: Three parts Prussian blue, one part oxalic acid and thirty parts of water. When dissolved, add one part of gum arabic. Yellow: One part fine orpiment, well rubbed up, with four parts thick gum-water. Red: With the aid of a gentle heat, dissolve four grains of carmine in one ounce of liquor ammonia and add six grains of gum arabic. Gold: Rub gold-leaf, such as is used by bookbinders, with honey, till it forms a uniform mixture. When the honey has been washed out with water the gold powder will settle at the bottom, and must be mixed with gum-water in sufficient quantity. Silver: Silver-leaf treated in precisely the same manner, gives a silver ink. Both these inks may, when dry, be polished with ivory. Black: Three ounces crushed gall nuts, two ounces crystallized sulphate of iron, two ounces gum arabic and twenty-four ounces water. White: Fine French zinc-white or white lead, rubbed up with gum-water to the proper consistency.

THE HARTFORD
ACCIDENT
Insurance Company.
Cash Capital. $500,000.
R. D. HUBBARD, Pres. GEO. B. LESTER, Sec.
Insures against all forms of bodily injury induced by accidental means: such as dislocations, fractures, broken bones, ruptured tendons, bruises, cuts, stabs, gunshot wounds, crushing or mangling, burns and scalds, bites of mad dogs or serpents, unprovoked assaults by robbers or murderers, stroke of lightning or drowning &c.
The records of the years are filled with such accidents, and no doubt will be, so long as human carelessness exists. We are beset with them, from the cradle to the grave, and there is scarcely an individual refer, within the sphere of his own family or acquaintance, to some accident in which the Indemnity offered by this company would have been a blessing worth much more than its cost.
Policies issued for long or short terms providing for weekly payments, in case of disability, and for the payment of the whole sum, in case of death.
The only company in the country that devotes itself wholly to accident insurance. A yearly policy covers accidents while travelling, while about one's business, while in the street, at home or abroad. The premium on each $1,000 is so small that every man able to secure a policy without the slightest embarrassment. For full and complete particulars inquire of L. D. DAVIS, agent for Newport and vicinity.

nov16 WM. C. COZZENS & CO.

THE NEWPORT DAILY NEWS AND THE NEWPORT JOURNAL.

The NEWPORT DAILY NEWS is published every afternoon, except Sundays, at the News Building, 13 Church street by Davis & Pitman.

The NEWPORT JOURNAL is published at the same office every Thursday morning, and contains a selection of the best matter in the Daily, including Editorial Discussions of the topics of the week, Literary Miscellanies, and at least one good Story, the Latest Markets, and a complete and comprehensive Summary of the news, local and general. The JOURNAL is a large 36 column paper and contains 50 per cent. more reading matter than any other paper in the south part of the state.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The DAILY NEWS, $6 per annum, or 12 cents a week payable to carrier.

The NEWPORT JOURNAL, $2 per annum, in advance.

ADVERTISING RATES.

Ordinary Advertisements, $1 a square, for the first insertion, and 25 cents for each continuance: Ten lines or less, in this type, make a square. A discount on these rates is allowed on all advertisements ordered for one week or longer. Funeral Notices 50 cents each.

PRINTING.

Connected with THE NEWS is the largest general printing office in the city. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

Newport Daily News.

WEDNESDAY, JANUARY 20, 1875.

THE NEWPORT JOURNAL

Is Published this Afternoon with the following

CONTENTS.

FIRST PAGE.—STORY.—A Queen's Adventure.
MISCELLANEOUS.—A Brave Servant Girl. Poetic Signboards. Pauperism in Paris. Who struck My Brother Bob? A Fortunate Accident. A Patent Editor. Tramps. An Enterprising Country Editor. Printers' Blunders.
SUNDRIES.
SECOND PAGE.—EDITORIAL.—The Special Message. The Governor's Message. The Sub-Committee's Report. (Is Private Character Public Property? The Week;—Editorial paragraphs on the Boston indignation meeting, clipping horses, the Grand Army, etc.
LOCAL.—Justice Court. Alleged Wife Murder. Real Estate Sales. The United Congregational Church. Mr. Fields' Lecture. Star Gazing. Supplementary Lecture Course. A "High Daddy" Ride. Ice Harvesting. Items.
STATE AFFAIRS.—Governor Howard's Message. Rhode Island Savings Banks. Items.
THIRD PAGE.—NEWS.—One column and a half of the most recent intelligence.
LITERARY.—Magazine notices.
MARRIAGES and DEATHS.
MARKETS.—Newport Retail. New York Wholesale and Cambridge Cattle.
FOURTH PAGE.—POETRY.—Moonshine. To Old Friends. Winter Weather. Christmas Hymn for the Prison.
AGRICULTURAL.—Farming that Will Pay. On Behalf of Boys. The Crops. Eggs by Weight.
SUNDAY READING.
RECEIPTS.

For Sale in wrappers ready for mailing at the office of publication, 13 Church street.

THE DAY.

Maine has re-elected Hannibal Hamlin Senator.

The Republicans of the New York legislature have given the complimentary nomination for the Senatorship to the Hon. E. D. Morgan.

The examination and graduating exercises of the Rhode Island State Normal School, Providence, will occur on Thursday and Friday of this week.

When Julia Smith of New York leaves $10,000 to a niece and "$1 and her forgiveness" to her husband it's about time to stop abusing William Shakespeare for bequeathing his wife his best bedstead.

The Beecher trial drags its slow length along. The first witness has pretty nearly told his story and it has taken about a week in which to do it. At this rate there will be a long "waiting for the verdict."

And now for another outcry from the political alarmists. A colored sheriff has been kept in office by military power when the mob had decided that he must resign and give place to an ex-rebel. Surely our liberties are in danger.

Boston University has now about five hundred students, over ninety of whom are in the law school. In addition to its large funds received from the estate of Isaac Rich, it has recently received $10,000 from a person in Baltimore and $100,000 from a gentleman in Boston.

Massachusetts has not elected a Senator yet. Kernan, Dem., has a pretty sure thing in New York, Wallace, Dem., in Pennsylvania, Andrew Johnson is ahead in Tennessee, Chandler is secure in Michigan, McDonald, hard money Democrat, is ahead in Indiana, Thayer in Nebraska and Ramsey in Minnesota. Delaware will re-elect Bayard and Wisconsin will re-elect Carpenter.

The nomination by the Massachusetts Democrats for the Senatorship of Judge Abbott whom they can't elect, instead of Charles Francis Adams whom they might elect, and by the Missouri Democrats of Gen. (C. S. A.) Cockerell when they might have laid the country under obligations to them by nominating and electing Carl Schurz, reminds us that Ephraim is joined to his idols, and must be let alone.

We have a President who never expresses his opinions when he can help it, and a Vice President who never loses a chance to express his opinions. The last effusion of Mr. Wilson is in the form of a letter to the Springfield Republican. He is confident that the Republican party is not likely to die except by suicide. He objects to party discipline, advises office holders to mind their own business, by which they can help the party more than by minding caucuses, and he counsels liberality toward the prodigal sons of the party who went to Cincinnati in 1872 and have ever since been yearning for even the husks that the swine did eat. He even invites those moral monstrosities and disgraces to mankind, as the Boston Journal and Troy Times regard them,—the "independent journalists,"—to come back into the Republican fold. If Bowles, Reid, Brown, Halstead and Watterson want any broken victuals or old clothes they had better act on Mr. Wilson's suggestion without waiting for a formal invitation which may never come.

PERSONALS.

......The winner of the first prize on "Utilitarianism" at the recent literary contest in New York was stroke of the Princeton crew at the last inter-collegiate regatta.

......North Carolina claims "King David" as one of its descendants. According to a correspondent, he is the son of Pautuk, who was the son of Kalakaua, a Tuscarora Indian chief, who was killed in an Indian fight in that state. Pautuk then went to the Sandwich Islands, where he married the daughter of the king, and "King David" was born, and now North Carolina wants him to make a "pious visit to the graves and hunting grounds of his paternal kindred." We are afraid Kalakaua is not piously inclined that way.

......Curious things happen in Paris. A recent letter says General Bavaiad, a wealthy Turk, has removed his seraglio from the suburbs to the city for the Winter season. He had his twelve "lights of the harem" conveyed in 'busses, guarded by real eunuchs, he himself being chief guardsman.

......Lady Dudley, whose jewels, estimated at $250,000 in value, were recently stolen at a railway station, is a sister of Lady Mordaunt, defendant in a famous divorce case. Lord Dudley was made an earl by the whigs for satisfactory votes. His income averages $1,500,000; but last year, owing to the great increase in the price of coal, was $5,000,000.

......And now "Lucrezia Borgia" must be reconstructed. Herr Gregorovius has written her life learnedly in two volumes, after laborious investigation. He finds that she was an estimable person, who would not have been known from other women if she had not been the pope's daughter. But her history and her Spanish blood coincide wonderfully.

......Jobbery in China, with a bad result. In a recent number of the Peking Gazette is a minute of the trial of Li Kwang-Chao. The culprit endeavored to secure official favor and a big "job" by making some generous proposals relative to the supply of timber to be employed in rebuilding the Summer palace, which proposals he subsequently was unable to carry out. He played a high game and lost, and now awaits execution after a term of imprisonment. If we could only deal this with jobbers here! But then what should we do with the heads?

......The tradition runs that Brougham once asked Jeffrey for £1,000 upon a promise to work off the debt in a year, and did it, writing the whole of one number of the Edinburgh Review. That may, of course, be fable for this story of Brougham's writing the whole of an Edinburgh Review is told of several writers. Shirley Brooks, it is said, wrote the whole of one week's Punch, Christopher North wrote the whole of one Blackwood, Gilbert à Becket wrote all the articles in one day's Times, but Brougham's capacity for work was equal to an Edinburgh Review.

......Mr. Schurz is not a Democrat in a strictly partisan sense, but he is better than a Democrat, being one of those Republicans who long ago gave up ambition, patronage and administration favor for the sake of principles which to both parties should be equally dear. On all national issues he represents the best ideas of the democracy and has consistently advocated them on the floor of the Senate. But there are other reasons than these which should have compelled his nomination. Mr. Schurz is one of the great orators and great thinkers of the country. He has an unimpeachable record for integrity, and none of our public men have a more splendid record for ability and energy.—[New York Herald.

......William Madison is the name of a young man who emigrated from Charlottetown, P. E. I., about four years ago, on account of poverty, and went to New York. He knocked about for a long time with varying luck, the variations being mostly against him, and at length he decided to enlist in the navy. This was recently. His intention was not carried out, however, for while on the way to the Brooklyn navy yard he met a friend of his father's who told him that a rich uncle in Poole, England, wanted him to go there. Very shortly after he received a letter from his father telling him that this uncle had died, leaving to him (the nephew) all his property, estimated at over a million dollars.

THE OLD COLONY RAILROAD.

The Old Colony Railroad Company intend to have a full train of new cars ready on the opening of the Summer travel to Woods Hole and the Vineyard. The cars are now on the stocks in the shops of the corporation, with a large number of men at work on them, under the supervision of Master Mechanic Gleason.

The same company intends to farther accommodate its patrons at Brockton by placing a clock in the tower of the new depot in that town.

The company has adopted Hall's system of automatic electric railway signals. The company has contracted with the inventor to have the road between Boston and South Braintree fully equipped with automatic block (interval of space system); the system is to be also applied to all the dangerous switches, stations, highway crossings and the drawbridges. In this connection the following from the last number of the Galaxy is of interest:—

IMPROVEMENTS IN THE BLOCK SYSTEM ON RAILROADS.

At the last meeting of the British Association an improvement in this mode of managing railroads was described. The old method of running trains was to allow a certain length of time to pass before one train could follow another; but if the forward train became disabled, there was great danger that the next one would run into it before it could be signalled. The block system differs from this in having the road marked off in definite lengths or block sections, into which one train is not permitted to enter until the preceding one has passed out. Safety is thus secured by leaving a sufficient interval of space. This is the ground principle of the new plan, but great advantages have been gained by collecting all the signals, switch levers and other means of operating the line into a large signal station placed at every alternate block section. This station consists of an elevated building with large windows from which the line can be observed. Signals are transmitted by electricity, and the apparatus is so arranged that it is almost impossible for the signal man to put a signal in such a position as would endanger a train without previously placing the necessary danger signals to warn the engineer of the train. The last improvement in this system has been applied on the Caledonian railroad in Scotland. On most roads the danger signals are usually down, and are raised only when required. The improvement is to keep these signals always up, so that the road is permanently closed to the on-coming train until the signal observer telegraphs that all is right. The advantage of this is that in case of negligence or accident preventing the signal man from doing his duty, the train cannot proceed, for the road is closed. A further safeguard consists in the fact that when a train passes, the observer attached to the section on which it is running must telegraph to the man next ahead to notify him of the fact. This man then telegraphs to the next observer to ask if his section is clear, and not until he receives answer that it is so can the train leave the section it is on. Thus three signal men are involved in permitting a train to pass from one section to another.

NEWS ITEMS.

Russia lost 300,000 animals by the cattle pest last year.

In Paris 611 women get their living by serving as models for painters and sculptors.

It is reported that a German camp of manœuvres for 150,000 men is to be formed near Treves, in the Spring.

Since the civil marriage law went into force in Germany less than one fourth of the Protestant couples married in Berlin have had the religious ceremony performed. The reason is that the new law makes the civil marriage obligatory, and many do not care to make a double expense.

The annual meeting of the Fall River Workingmen's Co-operative Association was held last week. The secretary's report exhibits the following result, which is considered very encouraging: Amount of sales for the quarter, $22,979; profit on the same, $2263.52. The sales show an increase of $5007.61 over those of the previous quarter. The capital stock employed is $19,731.81, and the sinking fund, $11,122.

Probabilities.

For New England, north or northwest winds, partly cloudy and decidedly cold weather, followed by a rising barometer.

LOCAL AFFAIRS.

—Washburn's last sensation appears at the Opera House tonight.

—Dr. Carpenter makes his visit to his patients in this city tomorrow.

—Mr. Philip Caswell Jr., leaves town tonight for the South where he will remain the rest of the Winter.

—Mr. William Allen, who hurt his shoulder by falling upon the ice a few weeks ago, is able now to attend to his business.

—Last night was very favorable to outdoor Winter sports and the streets were full of merry sleighing and coasting parties.

—The steamer Bay Queen did not arrive at Providence yesterday until after 11 o'clock, owing to the ice in the river.

—The sleighing on the average is excellent and those who are fortunate enough to have horses and sleighs are improving it every afternoon.

—During the extreme cold weather the running time of the trains on the Old Colony road will be lengthened about thirty minutes as a precautionary measure.

—Washburn's Last Sensation appears at the Opera House tonight. This is under the same management as when the Indians exhibited at this place some months since.

—The police were served with hot coffee by the liberality of Mr. George Stanhope and Mr. R. S. Barker on Monday and Tuesday evenings.

—Miss Fannie W. Aylsworth of this city is one of the graduating class at the Rhode Island State Normal School. The subject of her essay is, "Education of Girls."

—The New Shoreham members of the legislature went to Providence today. They were unable to leave home before yesterday noon on account of the weather.

—A party of about twenty, principally Odd Fellows, purpose having a sleigh ride to Portsmouth this evening where they will partake of a turkey supper.

—Mr. William Brownell, a graduate of Mr. H. H. Fay's school and of Amherst College is the city editor of the New York World.

—There is not only a city ordinance forbidding fast driving but there is one also against driving a horse without bells when attached to a sleigh. Conformity to each of these requirements will be evidence of law abiding citizens.

—H. C. Pierce of this city attempted to get on a horse car on Wickenden street, Providence, yesterday, but slipped and fell, spraining his leg badly. He was carried to the third station and removed to East Providence by his friends.

—The wreckers have everything in readiness to float the schooner Laura E. Messer, ashore on Block Island, but owing to the extreme cold weather nothing further has been done. It is authoritatively stated that the price to be paid the wreckers is $2,700 instead of $3,500.

—We are informed that the wages to be paid in the Perry mill will be the same as in the Richmond and other New England manufactories. Notice to that effect was posted in the several departments on the first of January and the new arrangement goes into effect on Saturday next.

—The steamer Newport broke several of the floats in her wheels while going through the ice to Fall River yesterday morning and was an hour late in coming from Fall River last night to this port on her way to New York, on account of the ice in Mount Hope bay.

—On account of the heavy ice between here and Fall River, we hear that the Old Colony Steamboat Company will on and after tomorrow make Newport the terminus of the steamboat line for the remainder of the Winter. The Old Colony remained here this morning and her freight and passengers were forwarded as they have been from Fall River. The boats will occupy the old wharf as it is far more convenient to coal from than the new wharf.

GRASSHOPPER TEA.—The ladies of Newport propose to hold a tea party at the Academy of Music, on Friday evening, February 5th, for the purpose of raising a fund to relieve the sufferers in the West, who, owing to the late grasshopper plague, are in the utmost need of assistance. As this is a charity which commends itself to every feeling heart in this, and every community, and as the managers of the tea party will endeavor to make it palatable to all, they trust that numerous charitable appetites may induce such a rain of greenbacks, as shall in a great measure counteract the effects of the reign of terror in the devastated region.

THE EOLUS.—Capt. Reynolds reports that he had great difficulty in reaching Wickford yesterday morning. The wind was northerly, and after he got into the harbor he became locked in by the ice that drifted down from up the river. The Eolus was an hour and three quarters in returning last night. She broke some of the guard braces, and the rudder chains, and cut her copper sheathing and planking. She is now lying on the south side of Commercial wharf and it will take two days to make the necessary repairs on her. The west passage is completely closed, and from the north end of Conanicut no water is to be seen either west or south.

THE SENATORSHIP.

Twenty Fourth Ballot.
[Special Despatch to the NEWS.]

PROVIDENCE, Jan. 20.

Whole number of votes cast	106
Necessary for a choice	51
Burnside	46
Dixon	30
Barstow	16
Sheffield	7
Scattering	7

The twenty fifth ballot showed no change. The Assembly adjourned till Thursday. The Republicans hold a caucus this afternoon.

REAL ESTATE SALES.

James Atkinson and wife have sold a strip of land seven feet wide extending from land of the grantee to the harbor line to George Burroughs for $65.

MIDDLETOWN.

COURT OF PROBATE.—All the members present. The first account of Nathan T. Van Alstyne, guardian of the estate of his son, Amos Butler Van Alstyne, the first account of Thomas R. Buffum, executor of the last will and testament of Lydia R. Buffum with her estate, and the third account of Christopher S. Peckham, guardian of the estate of Ruth Peckham, were received and referred with an order of notice on each.

Petition of Lucy, Fillmore and Frances J. Coggeshall to approve of their choice of their mother Mary A. Coggeshall as the guardian of their estates, and the petition of Susie A. Peckham to approve of her choice of Samuel Engs of Newport as the guardian of her estate were read and referred with an order of notice.

An instrument in writing purporting to be the last will and testament of Abner Ward was read in court and notice ordered to be given thereon preliminary to the probate thereof.

The last will and testament of Deacon John C. Barker was presented for probate, and his widow Mary Barker, declining to act as the executrix thereof, puts in a petition praying that letters of administration with said will annexed may be granted to Nathaniel Peckham, on the estate of her late husband. The deacon has given to his widow all his property, she to hold the same during her natural lifetime: at the] demise of his widow he bequeaths $100 to the poor of the Second Baptist church of Newport: the remainder of his worldly property or that remaining at the time of the decease of his widow, he gives to the American Baptist Missionary Union of Boston, to be devoted to the printing of Protestant Bibles and tracts under the superintendence of the Second Baptist church in Newport.

PORTSMOUTH.

One night last week, Mr. William Hathaway's wind-mill near Quaker hill, was broken open, and about a dozen bushels of corn and meal stolen therefrom. This is not the first time that Mr. Hathaway has lost property in this way from the same place. He is not without suspicion as to the direction in which the stolen property has gone.

The dogs here have been unusually destructive the past year. One person alone has had about one hundred and seventy-five dollars worth of sheep, turkeys and fowls destroyed by dogs. Is it not possible that this is a larger sum than all the dogs in town are worth? We would respectfully suggest to the General Assembly at its present session that when it has made the usual changes in town lines, and made a new liquor law, as is its custom at each session, that it shall then as heretofore, take the dog law in hand. As the prohibitory liquor law has not been so successful, and the licensing of dogs does not seem to suppress their destructive propensities, would it not be well to pass a law prohibiting dogs altogether? Would not this be an eleemosynary movement also, as it is a well known fact that every, or nearly every poor man who has a large family of children to support, also keeps one or two great beef eating dogs; to maintain one of which generally costs about as much as it does to keep two of the children in good condition? A friend suggests that legislation in relation to dogs and the liquor question should go hand in hand, as it has long been a custom to proscribe wine and bark in a large number of cases. But in all seriousness, the dog law seems to come very far short of the purpose for which it was enacted.

The annual turkey supper given by the Christian church, is to be held this evening, in their vestry. This is usually the best supper given in this town by any organization.

A PROPOSAL IN A CAR.—A Pennsylvania paper says that the passengers on one of the trains from Buffalo to Brocton last week were treated to a love scene of unusual character. Occupying one of the seats was a fair young maiden from Corry and a gray-headed, benevolent looking gentleman from Chicago. She was handsome, and not above twenty-two. He was on the shady side of sixty, with flowing white hair and beard, and a pleasant expression on his countenance. He had been in her company from Rochester, and the few hours passed in her society had again awakened the dream of love in his old heart. It was evidently a case of love at first sight on his part. With her 'twas not. But he told his tale. His wife was long since dead; his children had grown up, married and passed from his home. He was alone in the world. He had wealth at his command. But he longed for some companion to share it with him. This was spoken in a low tone, but sufficiently loud to be heard by those in the seats near him. At last the important moment came. The old gentleman said: "Will you share my fortune with me; will you be my wife?" Then spoke this noble oil maiden, "I cannot. Your riches are nothing to me. If I loved you I would accept; but that I do not, and must therefore refuse your offer." But the old man pleaded. He asked to be allowed to accompany her to Corry and see her parents. She declined. His pleadings were continued till the train arrived at Brocton, when she again refused to let him accompany her to Corry. His train arrived and they must part. He threw his arms about her neck and kissed her fervently, unmindful of the gazing crowd. Then upon the platform of the car he took off his hat, and with his white hair and beard streaming in the breeze and tears running down his cheeks, this aged lover blessed the fair maiden, and swore to see her again.

COMFORTING TO KNOW.—It is to be hoped that no one was unduly alarmed by yesterday's dispatch from New York on the supposed startling results of the calculation of the distance of the sun. The idea conveyed by the despatch was that the earth is approaching the sun at a disquieting rate, amounting to nearly seven millions of miles in 105 years. The reasoning is simple enough. The value of the earth's distance, as estimated by calculations on the transits of Venus in the last century, was ninety-five millions of miles. This has been reduced to the neighborhood of ninety-two and a half millions by subsequent observations. The latest estimates on the basis of the recent transit are eighty eight and a half millions. Hence the distance from the sun to the earth is decreasing. This is the logic of it. It cannot be called misleading; it is too thin. If the earth is falling toward the sun at such a rate, it is no recent movement. Our history extends back some thousands of years. But to assume that the rate is but six millions of miles in a century, we have made the rather respectable distance of 112,500,000 miles since the beginning of the Christian era, and are now less than half as far from His Solar Majesty as were our ancestors of that period. Yet the climate of the earth, and the lighting and heating power of the sun upon the earth's surface, have not perceptibly increased. Again it is a perfectly well-known law of physics that the period of revolution varies in a certain proportion to the distance between the sun and the planet; and we know absolutely that the period of revolution of the earth about the sun has not varied at all for thousands of years. The New York World perpetrated a very transparent and a very silly hoax. If the calculations alleged have been made, they are at best but rough estimates, and even if they were completely accurate they would only have corrected previous errors, which was the object of the observations, and would not indicate an approach of the earth to the sun.—[Boston Advertiser.

GEESE.

THE RHODE ISLAND GOOSE TRADE.—TIVERTON AND LITTLE COMPTON ARE THE HEAD QUARTERS OF THE BUSINESS—THE DIFFERENT KINDS OF GEESE, AND HOW THE BIRDS ARE COLLECTED AND SHIPPED.

The southern part of Rhode Island has for many years been noted for the large amount and fine quality of poultry which it has produced. A Rhode Island turkey has become the synonym of all that is desirable and excellent in that line, and the epicure, when he procures one for his table, rests in serene contentment, confident that his cultivated appetite will not be disappointed. They are quoted as a specialty in our principal New England markets, and will often bring double the price of a good western turkey. But the "South Country" is more particularly the home of the turkey, its dry, sandy hills and rocky pastures being specially adapted to the raising of this tender bird.

Tiverton and Little Compton, especially the latter, are famous for their fine geese, and without doubt there is no locality in the whole country of equal area that produces anything like the number here raised. Geese are grown much more easily, and come to maturity much quicker than turkeys. As early as the latter part of June, "green geese" begin to appear in our markets, and thenceforward until the season closes, the demand and supply has heretofore seemed almost exhaustless.

Boston is the centre of the goose-trade of New England, and thence they are shipped all over the country, daily supplies being furnished to the large New York hotels and to hundreds of Summer resorts and watering places where roast goose is deemed indispensable. We will not attempt to speak in detail of the different varieties raised or of the respective merits of the "native," the "India," or "mountain." The mongrel goose (generally so called) is obtained by a cross between the wild and native breeds, is difficult to raise, and consequently scarce in the market and often brings most fabulous prices. When King Kalakaua was to be feasted by the city of Boston, the royal dinner was not deemed complete without the addition of a mongrel goose.

One of the principal houses engaged in this trade is Brimblecome & Co., of Faneuil Hall market, Boston. They employ an agent, Mr. Charles Wilcox, who resides a part of the year in Tiverton, and superintends the collection of fattening, shipping, &c., of the geese. Of course it requires a man of considerable judgment and ability to trade with the farmers year after year to their mutual satisfaction, and attend to all the details of this business successfully and in this particular, the house of Brimblecome & Co., have made a very fortunate selection.

He conducts the business in this wise: A small farm is procured, through which is a running brook, and as near a railroad depot as possible. Near this brook several small yards are made, capable of accommodating from three hundred to five hundred geese, and then the business of collecting the young geese begins. Within a radius of five or six miles almost every farmer has one or more flocks. The farmer rarely fattens his geese himself, and the product of these flocks Mr. Wilcox, or some other dealer, engages by the lot or season as the respective parties see fit, to be moved to the fattening yards when of sufficient size and age. And now the fattening process commences, which usually occupies about three weeks. They are fed with an abundant supply of corn and a mixture of corn meal, beef scraps and water with a plenty of pure water to drink. When fattened, they are killed, carefully picked and thrown into cold water until thoroughly cooled, then packed in boxes containing from sixteen to twenty, and forwarded by express to Faneuil Hall market. In this way Mr. Wilcox has fattened and marketed the past season 3,200 geese and 900 ducks. To accomplish this, he has used 1,200 bushels of corn, 400 bushels of meal and 7 tons of beef scraps. The average cost of the geese when bought of the farmer was $1 12½ cents; of the ducks, 50 cents each. We should not omit to state that the feathers from the above named fowls are no inconsiderable item, amounting in quantity to about three-quarters of a ton.

Last year Mr. Wilcox fattened 3,000 geese and 1,800 ducks at an average price from the farm of $1.37½ cents for the former and 50 cents for the latter, so we see that the general depression of trade has affected this branch of industry. But this is by no means all of the story. Mr. Charles Dyer of Tiverton has fattened 1,700 geese and 300 ducks. A. Lincoln, of Taunton, Mass., has taken from those towns 3,400 geese and 900 ducks, and other parties about 3000 geese and 600 ducks. Besides this a few farmers fatten and market their own poultry. Here then is an aggregate of more than 11,000 geese and 3,000 ducks which at the present exceptionally low prices yield to the farmers of Tiverton and Little Compton $13,871. To fatten this poultry it requires 7,000 bushels of corn and meal and 30 tons beef scraps, while to care for and prepare them for market gives employment through the Summer and Autumn to at least 20 men.—[Correspondence of the Providence Journal.

MENHADEN AND GUANO.—The statistics presented at the meeting of the United States Menhaden Oil and Guano Association in New York. Thursday, were imperfectly reported by telegraph. The following are the figures:

Fish caught in 1874, bbls	1,478,634
do do 1873	1,193,100
Making an increase	285,534
Amount of guano made in 1874, tons	50,976
do do do 1873, do	36,299
Making an increase of	14,677
Oil manufactured in 1874, gallons	3,372,837
do do do 1873, do	2,214,800
Increase for 1874	1,158,037

Daniel T. Church and Isaac Brown, of Tiverton, were representatives of Rhode Island at the meeting.

JUST SO.—Speaking of taxation, the Springfield Republican says: "It is time that the grog shop should be charged with the damage it does. It should be assessed with the full cost of supporting the paupers, the jails and state prison, the state police and the criminal courts, for all of these institutions are tending toward strict state control. Our jails are certain to pass out of county hands, and our sheriffs to become the direct ministers of the executive, whether we shall call them state police or not. The principle that the administration of the state law should be in the hands of state officers, as far as practicable, is obviously sound. It will be, therefore, the duty of the state to put the cost of crime and pauperism on the chief cause of them, the liquor traffic."

A QUEER FISH.—A nondescript flat fish, half shark, half flat, eight inches long, five wide and one and one sixteenth thick, has been found on the San Paulo (Brazil) coast, among rocks constantly bathed by the sea. It lives on the sea urchins (echinidæ), attacks them and breaks off their spines with a horny beak, and when they are disarmed devours their flesh among the rocks, securing itself while doing so in a crevice by means of two strong fins, fortified by bony plates from the shoulders. Its back is rough and covered with spines. It appears altogether unknown to science, but as it looks very much like a bat the fishermen call it a sea bat.

BUSINESS NOTICES.

DYSPEPSIA.

☞ Dyspepsia is the most discouraging and distressing disease man is heir to. Americans are particularly subject to this disease and its effects; such as sour stomach, sick headache, habitual costiveness, heart-burn, water-brash, gnawing and burning pains in the pit of the stomach, coming up of the food, coated tongue, disagreeable taste in the mouth, impure blood and all diseases of the Stomach and Liver. Two doses of Green's August Flower will relieve you at once, and there positively is not a case in the United States it will not cure. If you doubt this go to your Druggist Jas. H. Taylor and get a sample bottle for 10 cents and try it. Regular size 75 cents.

STILL HERE!!

☞ The proprietor of the Ninety-nine cent store thanks his many patrons for their liberal patronage, and respectfully informs them that throughout the year, 1875, he will continue to offer immense bargains, in Cottrell's block, 2nd door south of post-office, Thames st. Newport R. I. tf.

DIED.

TILLEY.—In Bristol, 16th inst., Miss Maria E. Tilley, daughter of Stackford E., and Phebe A. Tilley, aged 22 years.

GILLIES' CRUSHED COFFEE.

HEALTHY PEOPLE and dyspeptics can alike drink "Gillies' Crushed Coffee," Java quality. Grocers sell it. jan16-2w-nMj

A Royal Organ.

The stomach has been well named a "royal organ," since it sways and controls the entire system, every gland, tissue and nerve sympathizing with it as the servants of a prince sympathize with their master. Each one of them is fed and sustained by it—even the brain itself, the centre of sensation, is absolutely dependent upon it for sustenance. Consequently, when the stomach fails to perform its all-important office, the subordinate organs also falter in their duty. The reason why Hostetter's Stomach Bitters have such a wondrously beneficial effect upon the general health, and are such a reliable preventive of disease, is that they speedily overcome weakness or disorders of the stomach, and thus insure complete nourishment of the entire system and a healthful performance of its various functions. Unlike those stimulants whose alcoholic principle is unmodified by judicious medication, the spirituous basis of these Bitters, which is of the purest description, holds in solution herbal alteratives and invigorants to which a foremost rank has been assigned in materia medica. But it is not alone the fact that these sovereign botanic elements enter into the composition of the Bitters that constitutes them such a benign tonic and corrective, but also that they are so happily combined that the full effect of each is exerted upon the disordered or debilitated system. The digestive and secretive organs are the first to experience their beneficent operation, which extends by sympathy, to the brain, the nerves and the circulation. The influence thus exerted is fruitful of those great sanitary results which have built up the reputation of this truly national medicine.

The broken down constitution, caused from kidney, bladder and glandular diseases is promptly strengthened, buoyed up and these complaints eradicated from the system by Hunt's Remedy. It triumphs over stubborn attacks of dropsy, female irregularities, complaints of the urino-genital organs, diabetes, excesses, intemperance, exhausted vitality, abuses of the system, gravel and affections of the prostrate gland. It is a diaphoretic, deobstruent, diuretic, solvent, alterative and tonic. jan15-1w

☞ The Milk of Magnesia is now admitted by both Allopathic and Homeopathic physicians to be a sovereign specific in the summer diarrhœas of children especially when complicated with acidity of the stomach. Caswell, Hazard & Co., Agents. dec28-1m

☞ The excruciating colics of young children that are deceptively lulled by insidious and poisonous soothing syrups can only be permanently cured by Milk of Magnesia, which soothes the torture by removing the morbid condition on which it depends. Caswell, Hazard & Co., Agents. dec28-1m

☞ The timely introduction of the new and valuable preparation of Milk of Magnesia has placed at the command of mothers the most effective remedy that has yet been discovered for the prevention and cure of summer complaints of young children. Caswell, Hazard & Co., Agents. dec28-1m

FOR PILES nothing is better than a free use externally and by injections, of "Constantine's Pine Tar Soap." Piles are driven away by it. The medicinal properties of the Tar act like a charm in this disease. Send three cent stamp for Almanac to Wright Gillies & Bro., New York. jan14-2w

It is useless to attempt to cleanse a stream while the fountain is impure. Dyspepsia, complaints of the liver or kidneys, eruptions of the skin, scrofula, headaches, and all diseases arising from impure blood are at once removed by Dr. WALKER'S CALIFORNIA VINEGAR BITTERS, purifier of the blood, and renovator of the system. It has never been known to fail. jan5-4w

To all the Teachers of Sunday School Classes

THE ORIGINAL J. A. WILLIAMS,
jan2 Downing's Block.

January, 1875.

As near January 1st as is practicable, all bills due the undersigned will be presented for payment. He hopes that none of these bills when received are to be neatly filed and docketed and then put in some safe place for future action, but rather that they be treated as many of his customers treat them, as things to be paid at once and then to have done with them forever. If any of these bills reach people who cannot pay them let them come and state the case and have an understanding about the matter, not leave it to grow into sullen sores and festers; let them remember the credit was asked as a favor and should be treated as a favor granted, and that there is no occasion to whine when a fair open statement will be received in a liberal spirit.

WEDNESDAY, JANUARY 20, 1875.

GENERAL NEWS.

FROM WASHINGTON.

An Effective Speech by M. Harris.

WASHINGTON, Jan. 19.

The Choctaw claim was discussed in committee of the whole house today, and Mr. Harris of Massachusetts made an effective speech in favor of its immediate payment through the treasurer of the Choctaw nation. There is much prejudice against this claim because of the lobby influence in its behalf, but it is believed that Mr. Harris's amendment offered today will secure the money to the Indians exclusively, and so baulk the lobby of this expected prey.

The Sundry Civil Appropriation Bill.

The House committee on appropriations today agreed to include the following items in the sundry civil appropriation bill: For refunding to the states their expenses in raising volunteers, $297,000; for construction and maintenance of military telegraph lines, especially in Texas, New Mexico and Arizona, $55,000; for the publication of official records of the war of the rebellion, $50,000; for the collection of bounty, prize money and other claims of colored soldiers, being a continuation of the work of the late freedmen's bureau, $45,000; and for the freedmen's hospital, $56,000.

Proposed Formation of New National Banks.

Since the passage of the act of January 14, the comptroller of the currency has received applications for the organization of national banks as follows: One bank in New York, capital $1,000,000; two in Connecticut, $200,000; two in Maine, $150,000; one in New Jersey, $100,000; one in Kentucky, $100,000; two in Massachusetts, $200,000; eight in Pennsylvania, $850,000; one in Illinois, $50,000. Applications have been received for an increase of capital from one bank in Kentucky, $200,000; one in Massachusetts of $200,000, and three in Pennsylvania of $310,000; total $3,360,000. Since the passage of the act legal tenders have been deposited for the purpose of reducing the circulation by two banks in New York state, $173,000 and one bank in Illinois, $59,000; total $232,000.

FROM NEW YORK.

A Writ of Error in Tweed's Case.

NEW YORK, Jan. 19.

The Times says it is reported that Tweed's counsel have obtained, or will in a few days, a writ of error from Judge Rapallo of the court of appeals, with a *supersedias* attached, to the court below, the effect of which will be the taking of Tweed from Blackwell's Island by *habeas corpus* and his release on bail to await a review of his case before the full bench of the court of appeals.

The Sunday Amusement Question.

Judge Van Brunt decided in the supreme court today to sustain the demurrer in the suit brought by Max Strakosch to restrain the police commissioners from interfering with Sunday amusements.

Another Gunpowder Explosion.

Shortly after 12 o'clock today another explosion of Rendrock powder occurred in shaft two of the Delaware and Lackawanna railroad tunnel, resulting in injury to several Italians employed there. Stephen and Francisco Rohr are reported fatally injured and were removed to the hospital.

MISCELLANEOUS.

Louisiana:

NEW ORLEANS, Jan. 10.

J. N. Vaughn, through the attorney, Judge John A. Campbell, has filed a petition in the sixth district court, claiming $100,000 damages from Generals Sheridan, Emory and De Trobriand, and Mr. H. J. Campbell, who, on the 4th of January last, did unlawfully, violently and forcibly make an assault on the petitioner, and thrust him from the house of representatives, where he claimed a seat. Interrogatories of the fact are propounded to the defendants.

LOUISIANA.

THE DESPOTISM OF THE KELLOGG GOVERNMENT.—ASTONISHING POWERS WHICH A SERVILE LEGISLATURE HAS CONFERRED ON THE SATRAP.—THE PARALYZATION OF BUSINESS AND THE BURDEN OF TAXATION.

The general condition of affairs in Louisiana seems to be as follows: The conviction has been general among the whites since 1872 that the Kellogg government was an usurpation. This conviction among them has been strengthened by the act of the Kellogg legislature, abolishing existing courts and judges and substituting others presided over by judges appointed by Kellogg, having extraordinary and exclusive jurisdiction over political questions; by changes in the laws centralizing in the governor every form of political control, including the suspension of the elections by continuing the returning board, with absolute power over returns of elections; by the extraordinary provisions enacted for the trial of titles and claims to office; by the conversion of the police force, maintained at the expense of the city of New Orleans, into an armed brigade of state militia, subject to the command of the governor, by the creation in some places of monopolies in markets, gas making, water works, ferries, cleaning of vaults, removing filth and doing work as wharfingers; by the abolition of courts, with the election of judges, and the substitution of other courts with judges appointed by Kellogg; in the evasion of the constitution of the state by enactments, punishing criminally all persons who attempted to fill official positions unless returned by the returning board; by unlimited appropriations for the payment of militia expenses, and for the payment of legislative warrants, vouchers and checks issued during the years 1870 to 1872; by laws declaring that no person in arrears for taxes, after the default is published, shall bring any suit in any court of the state, or be allowed to be a witness in his own behalf,—measures which, when coupled with the extraordinary burdens of taxation, have seemed to confer a degree of power on the governor of the state, scarcely exercised by any sovereign in the world.

In connection with this is a general want of confidence in the integrity of the existing state and local officials; a want of confidence equally in their persons and in their *personnel*, which is accompanied by the paralyzation of business and destruction of values.

The most hopeful witness produced by the Kellogg party, while he declared that business was in a sounder condition than ever before, because there was less credit, has since declared that there was no prosperity. The securities of the state have fallen, in two years, from seventy or eighty to twenty-five; of the city of New Orleans from eighty or ninety to thirty or forty; while the fall in bank shares, railroad shares, city and other corporate companies have in a like degree corresponded. Throughout the rural districts of the state, the negroes, reared in habits of reliance upon their masters for support, and in a community in which the members are always ready to divide the necessaries of life with each other, not regarding such action as very evil, and having immunity from punishment from the nature of the local officials, had come to filching and stealing fruit, vegetables and poultry so generally, as Bishop Wilmer stated without contradiction from any source, that the raising of the articles had to be abandoned entirely, to the great distress of the white people, while within the parishes, as well as in New Orleans, the taxation had been carried almost literally to the extent of confiscation.

In New Orleans the assessors are paid a commission on the amount appraised, and houses and stores are to be had there for the taxes. In Natchitoches parish the taxation reached about 8 per cent. of the assessed value on property. In many parishes all the white Republicans and all the officeholders belonged to one family. There are five of the Greens in office in Lincoln parish and there are seven of the Boults in office in the parish of Natchitoches. As the people saw taxation increase and property diminish; as they grew poor while the officers grew rich, they became naturally sore. That they loved their rulers cannot be pretended. The Kellogg government claimed to have reduced taxation. This was effected in part by establishing a board to fund the debt of the state at sixty per cent. of its value. This measure caused great hostility, not so much because of the reduction of its acknowledged debt as because it gave to the funding board, whose powers seem to be absolute and without review, discretionary authority to admit to be funded some six millions of debt alleged to be fraudulent, so that, under the guise of reducing the acknowledged debt, it gave opportunity to swell the fraudulent debt against the state. This nominal reduction of the state taxes has been accompanied by a provision that the parish tax shall not exceed the state, but parishes have, notwithstanding, created liabilities. Judgments having been received on them, the courts have directed taxes to be levied for their payment, and thus the actual taxes have been carried far beyond the authorized rates.—[Report of the Congressional Sub-Committee on Louisiana affairs.

THE BEE AS A SCAVENGER.—Those who study the habits of bees find infinite delight in observing the vigilance and pains they exert to keep the hive scrupulously clean and free from everything offensive. If a death happens to occur in the very numerous family, the undertaker is dispatched at once to the scene, and the corpse is hurried to burial with a haste that might be regarded as indecent if it were not absolutely necessary in a household where the thermometer stands at seventy while it is zero all out doors. The body is hustled out of the place *sans ceremonie* and flung over the outer periphery, and no more attention paid to it than to so much bass refuse. But there are exigencies occasionally arising in the hive which sometimes tax but never frustrate the ingenuity of bees. Such a one, for instance, as the obtrusion of a mouse.

Now it is veraciously related that a mouse found its way into the hive of one of our amateur bee men, not long since, and, no doubt, created a dreadful commotion among the honey-gathers. But be that as it may, the intruder was found dead and completely embedded in wax, leaving the astonished amateur to theorize that the mouse, having a sweet tooth, crept into the hive to steal honey, but unfortunately aroused the inmates, and before he could find his way out again was stung to death. By and by decomposition set in, and Mr. Mousey began to disseminate a bad smell, which bees cannot tolerate; but finding it impossible to hustle him over the ramparts as they do other nuisances; they went energetically to work and sealed him up in wax, hermetically sealed him, in fact—so that not the slightest odor escaped to make the hive unpleasant for the high toned, extremely neat and cleanly inhabitants.

WINTERING SHEEP.—I herewith send you (writes a Vermont correspondent) a few thoughts about the Winter management of sheep. Low, underground stables and barn cellars are poor places in which to winter sheep. It is unnatural and unhealthy for them to be obliged to partially burrow in the ground. Good air and exercise are essential to their health and vigor. They should run out into the fields on pleasant days a portion of the time, as long as the ground remains bare. They should be made to exercise by being driven out of their pens while their hay is put into their racks, and be made to go around the farm buildings or away from the barn upon one side of a fence to an opening in the same and return upon the other side. They will soon learn to go the rounds themselves, if they have their feed when they return to their pens. This practice should continue through the Winter, except in very stormy weather, and, if necessary, break ronds through the snow for them to travel in. They should be kept in sunshine as much as possible. Good feed for our sheep, without sufficient exercise, will not keep them strong and vigorous. They are not an animal that can remain dormant through the Winter, or just eat, drink and lie down during that time and be healthy in the Spring; neither ought we to expect strong, healthy lambs from ewes so managed. It is one of the laws of nature which must be obeyed that exercise is absolutely necessary for health and strength.

WHAT CAUSES WIND?—The cause of wind or atmospheric currents is the creation of vacuity. Vacuum is maintained by vibration to so great an extent that when the particles of vapor cause vibration and coalesce into raindrops, the space they seem to occupy is diminished to the extent of about 1,000 to 1, and the vacuity their great amplitude of vibration had maintained is then rushed into by the surrounding atmosphere. As the aqueous currents from the equator become cooled by the polar currents on which they float, they sink into them, and the vibrating particles of water vapor have their vibrating amplitude shortened more or less rapidly till the vapor is reduced to a liquid by condensation. The enormous extent of vacuity thus produced by long continued rainfall accounts for long continued stormy and windy weather. But some one abler than I may explain how electricity affects rainfall—whether the lightning flash does not cause the union of surface floating hydrogen with the oxygen below into steam, soon condensed into water drops; and whether or not the molecular change from its extreme suddenness is not the cause of thunder. I take it to be so. But there can be no doubt that condensation of aqueous vapor in the atmosphere causes aerial currents of wind.—[J. Barwick.

CHINESE MIRRORS.—The curious property possessed by Chinese metal mirrors of ornamentation has long been a matter of wonder to persons ignorant of the reasons for the phenomenon. The manufacture is described as follows: Chinese mirrors are castings of a somewhat porous alloy. Before the reflecting face is finally polished, it is laid on an anvil, and the embossed designs or figures at the back well hammered. This of course condenses and closes the pores of the metal in these parts, and, in consequence, when the face is finally polished, the metal in front of the designs has its power of reflecting light increased, and so gives rise to the fallacious idea that the pattern shines through the metal.

Richardson's New Method

For the PIANOFORTE.

It stands the test! Sells 25,000 yearly, and is gaining friends everywhere. No piano instruction book ever issued approaches it for real merit and worth, and no teachers regret using it in their course of instruction. This work is a power in the musical advance of the day, and has been a most important agent in the recent tremendous increase of technical knowledge of the Pianoforte.

The success of RICHARDSON'S NEW METHOD is world wide, and prompts many competitors, but its sale surpasses that of all others COMBINED, and it stands today incontestably superior to all other Piano Methods.

Used by thousands of Music Teachers and sold by all Book and Music Dealers in this Country and Canada.

PRICE $2.75.

All books sent, post-paid for retail price.

A FEW odd Winter Cloaks very cheap. nov7 WM. C. COZZENS & CO.

Newport Daily News.

WEDNESDAY, JANUARY 20, 1875.

Salting Pork and Beef.—While the price of the better grades of salt is so little in advance of the common grades, every man who salts meat of any kind should never risk the curing with any but the best. If we get the coarse solar or diamond there will be no trouble.

When the pork has been killed, and hung in a cool place for twenty-four hours, it should be sufficiently deprived of the animal heat to be safely laid down in salt. If not thoroughly deprived of this heat, it is liable to trouble, even with the best salt. Therefore, this is the first and most important step in curing pork.

Cut it into suitable pieces, and rub each one separately with salt—hams, shoulders, chops, bacon and side meat—and stack it up so that the blood may drain for forty eight hours. Then pack the side meat on its edge, in sweet barrels, as closely as possible, always keeping the skin side next the side of the barrel, and using one half bushel, by measure, of coarse salt per barrel. When the barrel is full, weight the meat with a flat stone and pour on sufficient cold water until bubbles cease to rise and the meat is entirely covered, always recollecting that fat meat will not take up an excess of salt. If the barrel is to be headed up, do this before the water is put in, and pour it through a vent in the top. If thereafter you keep the barrels in a cool place, as the cellar, and upon taking from the barrel, are careful to keep the meat submerged, it will keep one, two, or three years, perfectly.

For curing in the best manner hams, shoulders, chops and bacon, after the blood has been drained as previously recommended, should be packed in a suitable cask, pretty tight, make a brine of two pounds salt, one pound sugar, and four ounces saltpeter to each gallon of water; scald and skim this brine, and, when cold, pour over the meat; keep in a cold place, but not so as to be frozen, for about four weeks. Thus cured, meat will not require any freshing, and it will retain its red color admirably. It is a most excellent way for corned beef, but it will not keep during hot weather. The hams and bacon, however, will be all right, for the smoking will tend to preserve them.

Horses in Horses.—The complete inefficacy of the various popular panaceas for bots in horses may be better understood when we come to know something of the nature of these persistent parasites. They are not worms, but larvæ of a fly, and are possessed of remarkable powers of endurance under adversity. The most insinuating circumstances are but as milk and honey to them, and in an instance recently recorded, a colony of them, attached to the stomach of a dead horse were not inconvenienced by an hour's exposure to a bath of spirits of turpentine. But when whale oil was poured upon them, they let go their hold and died almost instantly. Now, whale oil being thus indicated as an effective dose, and being aperient in its action upon the horse, would seem to be the remedy that would be chosen before any other. At least it might be well to have some experiments made, and the results carefully noticed and made note of.

VEGETINE

PURIFIES THE BLOOD, REGULATES AND INVIGORATES THE WHOLE SYSTEM.

Its Medical Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

Vegetine is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated, that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** Vegetine has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Incontinence,** arising from internal ulceration, and uterine disease, and **General Debility,** Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness, and General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the Vegetine. It purifies the blood, cleanses all of the organs and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

PREPARED BY

H. R. STEVENS, Boston, Mass.

What is Vegetine?—It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers; for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep,—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the Vegetine. Give it fair trial for your complaints; then you will say to your friend, neighbor and acquaintance "Try it: it has cured me."

Vegetine for the complaints for which it is recommended, is having a larger sale throughout the United States than any other one medicine. Why? **Vegetine will Cure those Complaints.**

VALUABLE INFORMATION.

Boston, Dec. 12, 1869.

Gentlemen—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the Vegetine, and before I had completed the first bottle I saw that I had got the right medicine. Consequently, I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing me of this acute complaint, of which I have suffered so intensely.

Newport Testimony.

STATEMENT OF MR. RICHARD STAFFORD.

Newport, Jan. 7, 1875.

W. H. Carpenter, M. D.—Dear Sir:—Having received great benefit from your treatment of my case of deafness and discharges from my ears, I beg to offer you my sincere and heartfelt thanks, hoping at the same time this correspondence may be of use to you professionally. To the public I would say, (if you decide to put this in print,) that as the result of Scarlet Fever, I was troubled for the whole of twenty years with a filthy, disgusting discharge from both ears, which made me grow deafer and deafer, and caused a polypus to grow in one ear, and I received no relief until I applied to Dr. C., for a remedy. I at once placed myself under his care, and through his skillful treatment I have completely recovered from the unpleasant and deplorable condition I was in. My faith in Dr. C's skill is unbounded as I considered my case about incurable before applying to him.

RICHARD STAFFORD, No. 8 Cross street.

CERTIFICATE OF MR. JOHN CASWELL.

Newport, R. I., Dec. 13, 1874.

To the Editor of News:—I wish to recommend Dr. Carpenter's treatment to such of the community as have Scrofula. I inherited it, and it has always run in my blood, and last Fall it became horrible, injuring my health, and attacking my head and face particularly and so disfigured me that a neighbor that met me did not know me until I spoke to him. I applied to Dr. Carpenter, at the Perry House, and his medicines have met with gratifying success. My health is now good, have very little trouble with the humor, face looks natural, and I hope with a little more treatment, to eradicate the poisonous humor from my system entirely. I reside in Middletown.

JOHN CASWELL.

Catarrh and Polypus.

Home Testimony.

Newport, R. I., Nov. 6th, 1874.

This is to proclaim what Dr. Carpenter has done for me. I suffered from Catarrh 40 years, and the last 10 years my nasal passages were filled with Polypus. I employed physicians from time to time, and two years ago, went to Boston, and was deafened there three months, and left off worse than I began, and I was almost discouraged. But I felt that I must do something, for I was obliged to keep my mouth open and my health was becoming impaired. So I went to Fall River last Spring, and placed myself under the care of Dr. Carpenter. His treatment proved highly satisfactory. He removed and cured the Polypus, I can breathe naturally, the Catarrh troubles me very little and altogether I am comfortable and as well as a man 60 years of age, can expect to be, and I hope this testimony may be the means of securing relief to other sufferers. I reside in Middletown.

ASA PECKHAM.

Permanent Cures of Scrofulous Catarrh.

Testimony of a Citizen of Newport.

My son and daughter were sufferers from Scrofulous Catarrh from birth, and with discharges, swellings upon their necks; and an utter inability to breathe through the nose, they were uncomfortable enough, when we placed them under the care of Dr. Carpenter in 1865. His remedies cured them in a few months and they remain well to this date. I publish this with the hope it may be the means of securing relief to others.

S. B. BREWSTER,
Ferry House,
Newport, Nov. 2d, 1871.

A CARD FROM

Mr. John Beattie Jr.

(From Fall River News.)

Fall River, Jan. 23, 1875.

W. H. Carpenter, M. D.,—My Dear Sir:—Allow me thus publicly to express my gratitude for the great benefit conferred upon me by your treatment. I was afflicted for years with Catarrh which had become a constant torment to me, the irritation and inflammation having increased until ulceration was the consequence. Your treatment has been attended with the happiest results. I am now comfortable, my head feels well, and I believe myself cured of that terrible disease. JOHN BEATTIE, Jr.

Mr. Beattie is of the well-known Firm of Wm. & J. Beattie, Jr., Granite Dealers and Contractors, 3 Quarry street.

A CARD FROM WALTER SCOTT, Esq.,

EDITOR OF BORDER CITY HERALD, OF FALL RIVER.

I have known Dr. Carpenter since he commenced practice in this city, and I am satisfied that he is a skillful physician and has been successful in the treatment of a great majority of the cases in which he has been consulted. Of my own personal knowledge, I have reason to testify that quite a number of the individuals cured were nearly hopeless in their condition; some about blind, others deaf, and others laboring under Bronchial and Catarrhal affections, and I have seen the same persons restored under his treatment to their normal state of health. I therefore, knowing these things, without hesitation recommend him to persons suffering from the maladies he has made his special study for years. WALTER SCOTT.

VOICE RESTORED.

TESTIMONY OF MISS GARDNER.

(From Fall River News.)

Dr. Carpenter:—Dear Sir,—My thanks and gratitude are yours. When we consulted you last April, I was miserable indeed; I had lost both my health and my voice, and for two and a half years I could only whisper faintly. I had been deafened so much that we had little faith in the ability of any physician to restore me, but your treatment has performed a cure. I can talk aloud, and my health is good, better than for years. You may publish this if you wish; and as I do not reside in Fall River, I will refer to Mrs. Wm. H. Mason, No. 44 North Main street, and Mr. and Mrs. Mason Rounds, No. 64 Durfee street, with whom I resided during treatment. Respectfully yours,

MISS HATTIE GARDNER.

Swansea, Mass., Sept. 16, 1874.

Scrofula and St. Vitus Dance Cured.

(From Fall River Herald.)

When we took our daughter Ellen to Dr. Carpenter last May, at the Mount Hope House, she was in a terrible condition from Scrofula and St. Vitus Dance, and was not willing to go among folks, for her limbs jerked and twitched so she had not much control over them, but through Dr. Carpenter's skill she has been restored and is now well. We want this cure known, for some of our acquaintances have taken their children to Europe for treatment, thinking they could not be cured in this country. This case is well known by our neighbors. GEORGE HEAP,

White Block, Border City Mills.

Fall River, Sept. 10, 1874.

Mr. A. D. White's Card.

(From Fall River News.)

Fall River, May 2d, 1871.

To my Friends and the Public:

It affords me great satisfaction to be able to testify to the success of Dr. Carpenter in the treatment of my Ears, which were a source of trouble and annoyance to me more than twenty years. Dr. C.'s treatment restored them, and they have been well several months. I have great confidence in Dr. Carpenter's skill and success in practice, and do not hesitate to recommend him. A. D. WHITE,

Firm of Dennis White & Son,
Troy Building, Pleasant St.

Catarrh and Blindness.

(From Fall River News.)

Testimony of Mrs. J. Clomb, of Fall River.

I was diseased with an aggravated form of Catarrh for years, and in consequence my eyes became affected in December last, and grew worse until I could not go about without being led. Was under the care of several doctors and at the Boston Infirmary, but got no help until I consulted Dr. Carpenter at the Mount Hope House, April 2d. Under his treatment I began to improve immediately, and now I consider myself cured. I think everyone should know there is a physician in Fall River who can cure such diseases. As I am not very well known in this city, I am at liberty to refer to W. Scott, Esq., No. 1 Ferry street, who saw me when I was in a state of Blindness and since I was cured. MRS. JEREMIAH CLOMB.

REGULATIONS.

1. DEPOSITS will be received as low as one dollar, and when any person's deposits shall amount to five dollars, they will be put upon interest, at such times as are hereafter named; but no fractional parts of a dollar will be received.

2. All sums deposited on the third Monday in January, April, July and October, go immediately on interest. Deposits made after the third Monday in January, April, July and October, will not commence drawing interest until the beginning of the following quarter.

3. A dividend of the income or profits of this institution will be declared payable semi-annually, on the third Mondays of January and July, but no interest will be paid on any sums withdrawn before said dividend.

4. All dividends that are not withdrawn, will be added to the principal, or sum put in, and the depositors will thereby obtain compound interest.

5. The Treasurer is authorized to pay out to the depositors the whole or any part of their deposits or dividends, at any time when called for.

6. The members of the Board of Trustees do not receive any emolument for their services, nor can any money be loaned to either of them.

7. If persons die who have money in the Savings Bank, the money will go to their heirs, or persons to whom they may have given it by will.

HAVE YOU TRIED

JURUBEBA?

ARE YOU

Weak, Nervous, or Debilitated?

Are you so Languid that any exertion requires more of an effort than you feel capable of making?

Then try JURUBEBA, the wonderful tonic and invigorator, which acts so beneficially on the secretive organs as to impart vigor to all the vital forces.

It is no alcoholic appetizer, which stimulates for a short time, only to let the sufferer fall to a lower depth of misery, but it is a vegetable tonic acting directly on the liver and spleen.

It regulates the Bowels, quiets the nerves, and gives such a healthy tone to the whole system as to soon make the invalid feel like a new person.

Its operation is not violent, but is characterized by great gentleness, the patient experiences no sudden change, no marked results, but gradually his troubles

"Fold their tents, like the Arabs,
And silently steal away."

This is no new and untried discovery, but has been long used with wonderful remedial results, and is pronounced by the highest medical authorities, the most powerful tonic and alterative known.

Ask your druggist for it.

For sale by GEO. C. GODDWIN & CO., Boston. jan5-4w

THE NEW IMPROVED

REMINGTON

Sewing Machine

AWARDED

The "Medal for Progress,"

AT VIENNA, 1873.

The Highest Order of "Medal" Awarded at the Exposition.

NO SEWING MACHINE RECEIVED A HIGHER PRIZE.

A Few Good Reasons.

1.—A New Invention Thoroughly Tested and secured by Letters Patent.

2.—Makes a perfect LOCK STITCH, alike on both sides, on all kinds of goods,

3.—Runs Light, Smooth, Noiseless and Rapid—best combination of qualities.

4.—Durable—Runs for Years without Repairs.

5.—Will do all varieties of Work and Fancy Stitching in a superior manner.

6.—Is Most Easily Managed by the operator. Length of stitch may be altered while running, and machine can be threaded without passing thread through holes.

7.—Design Simple Ingenious, Elegant, forming the stitch without the use of Cog Wheel Gears, Rotary Cams or Lever arms. Has the Automatic Drop Feed, which insures uniform length of stitch at any speed. Has one new Thread Controller, which allows easy movement of needle-bar and prevents injury to thread.

8.—Construction most careful and finished. It is manufactured by the most skillful and experienced mechanics, at the celebrated Remington Armory, Ilion N. Y.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

They are a gentle Purgative as well as a Tonic, possessing the power of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humor and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim Vinegar Bitters the most wonderful Invigorant that ever sustained the sinking system.

CONSTANT EMPLOYMENT—At home, Male or Female, $20 a week warranted. No capital required. Particulars and valuable sample sent free. Address with 6 cent return stamp, O. ROSS, nov25-12w Williamsburg, N. Y.

Look at This.

The last ten years have been very disastrous to insurance companies in the United States. More than sixty have failed altogether, and many others have reduced their capital stock or otherwise became greatly weakened. But there are a few that by prudent management and wise liberality on the part of stockholders are much stronger now than ever. Consider the following figures taken from the reports of the Insurance commissioner of the state of New York, for 1864 and 1874.

Ætna of Hartford, Assets in 1864.		$3,500,489. 93
" " "	1874.	5,815,802. 03
Increase of assets in ten years.		2,048,852. 10
Insurance of North America, 1864.		$1,718,171. 78
" " "	1874.	3,268,000. 00
Increase of assets in ten years.		1,547,828. 22
Royal of Liverpool, (American Funds) Assets in 1864.		$1,027,084. 0
" " in 1874.		3,073,483. 8
Increase in ten years.		1,245,499. 78
Hartford, of Hartford, Assets, 1864.		$1,375,920. 48
" " "	1874.	2,416,681. 61
Increase in ten years.		839,761. 03

This wonderful growth during a term of unparalleled disaster is not the result of good fortune merely, for these companies have been the heaviest losers in Portland, Chicago, Boston and other cities, and have paid out millions of dollars each year. The facts commend themselves to persons who want RELIABLE insurance in these days of trial. A policy in such companies is worth twice as much as one in any of the untried institutions that are springing up on every hand. The rate is the same.

Dwelling houses and their contents insured for five years at very low prices—lower in fact than is charged by many of the Mutuals where the insured is liable to heavy assessments in case of a large fire in any of our larger towns.

Policies written on all classes of property, and losses paid at this agency.
